

General

LiRI is a technology platform of the University of Zurich (UZH), specialized for linguistic and language related research. It provides services for UZH members and external users. Fees for academic users are comparable to those at other universities. Commercial and other non-academic users pay full costs. Costs for consumables and supplies are charged separately.

LiRI's user fees fall in four categories. For categories 2, 3, and 4 below only prices for academic users are listed.

Category 1: Fees for services and support provided by LiRI staff

Expert time is billed on an hourly basis. As of 1.7.2022 until 30.6.2023 the following price structure is valid:

UZH members and research collaborators pay	CHF 75 per hour.
Members of other academic or public institutions pay	CHF 117 per hour.
Other LiRI users pay	CHF 121 per hour.

The first consultation hour is free of charge.

Category 2: LiRI Lab fees for installation of devices for use outside of the lab**Prices for LiRI lab loan equipment per installation and extensions**

Regulations for loan of equipment for use outside of the lab:

- The equipment will be loaned initially for a period of one week.
- The loan period may be extended for further weeks on request (subject to availability).
- After twelve weeks, loan equipment has to be returned for revision. A new installation is possible (subject to availability), prices for installation apply.
- According to LiRI's general terms and conditions, agreements are made and confirmed in writing, sent by post or mail.
- If you intend to pay costs for loan equipment with SNSF funds, and these were not included in your initial funding application, please check with the SNSF if they cover the costs.
- Fees for loan extensions are quoted separately on LiRI invoices.

ACADEMIC USERS

	per installation in CHF	per extension week in CHF
Device installations for experiments outside of the LiRI lab		
Portable screenbased Eyetracker (laptop with licensed software included)	370	22
Eyetracking glasses	110	20
LENA Basic Kit (with license laptop and 2 DLPs)	180	20
LENA Extra Recorder, each	15	7
Fieldwork camera Zoom Q8	46	12
Video camera kit SONY PXW-Z90 (4K, HDR, HLG)	60	22
EEG system with basic consumables and license laptop	560	100
fNIRS system	460	100
Transcranial Electrical Stimulator	100	20
Ultra-sound Tongue Imaging (UTI)	150	20
Electroglottography or Breathing Belt	40	20
Accessories and small phonetic devices	45	20
Laptop or dongle with licensed software (e.g. Tobii Pro, ePrime etc.)	177	20

Category 3a: Fees for use of devices in the LiRI lab**Usage is billed per study participant.**

Note that fees for the use of LiRI lab space (recording booths, EEG booths, testing cubicles, see below 3b) are excluded here, but have to be added according to the hours the lab space is used.

	ACADEMIC USERS
Device installations for experiments inside the lab	per participant in CHF
EEG system (Brain Products or Biosemi)	50
fNIRS	50
Physiological Monitoring System	50
Screenbased Eyetracker	30
EMA (Electromagnetic Articulograph)	50
Ultra-sound Tongue Imaging	45
EKG system (Electroglottograph/Laryngograph)	25
Breathing Belt	25
Motion Tracking	45

Category 3b: Fees for using LiRI lab space, booths**Prices per hour and booth or cubicle**

	ACADEMIC USERS
Lab space	per hour in CHF
Recording booth	15
EEG booth	15
Testing cubicle	5

Category 4: Fees for IT services

	Prices
Storage: In addition to the generated storage costs and Central IT's storage fees for single user storages (both SMB and SFTP), LT charges 1h/year. A storage solution for multiple users (currently only SMB) is charged with 3h/year, plus storage fees. Included are the setup and changes to user access configuration.	for single user: CHF 75/year for multiple users: CHF 225/year
Web space limited to 1 GB is charged at the rate of 2h/year, including access via SFTP. For space requirements larger than 1 GB, the standard storage fee applies.	for 1 GB: CHF 150/year
A standard Dokuwiki instance , with size per instance limited to 1 GB, is charged with 4h/year. For space requirements larger than 1 GB, the standard storage fee applies. Individually configured instances can be set up by agreement.	for 1 GB: CHF 300/year
Virtual Machines and managed servers: Costs for virtual machines on ScienceCloud are estimated on an individual basis. A minimal setup typically amounts to approximately 10h/year.	minimal setup: CHF 750/year

Detailed description of LiRI's IT services:
