

## 1 Position for LiRI lab technician (2 years + ; 100% employment)

The University of Zurich has recently established the **Linguistic Research Infrastructure (LiRI)** which has been recognized as a University Technology Platform since the beginning of 2020 (LiRI website: [www.liri.uzh.ch/en.html](http://www.liri.uzh.ch/en.html)). The platform seeks to fill the **position of a lab technician** to manage the LiRI laboratory. In this lab, we run a variety of speech, language and brain experiments using the following techniques amongst others (randomly listed):

- Acoustic and video recordings of speech
- Electromagnetic articulography
- Electroencephalography
- Eyetracking
- functional Near-Infrared-Spectroscopy
- Auditory Brainstem Responses
- Ultrasound for articulation studies
- Electroglottography/Laryngography
- Pharyngometry

### Requirements:

- Experience with managing laboratory environments in the area of speech & brain research (or related) and with as many techniques (or related) as listed above
- Degree (BA, MA or PhD) in a relevant area is desired but evidence of lab managing expertise in the relevant techniques is rated more important
- Good command of English and German
- Excellent communication skills
- A related PhD in one of the experimental areas is considered an asset.
- We strongly aim at gender balance and particularly encourage women to apply.

**To be considered your application must consist of one single PDF file of max. 4 pages with the following structure:**

- ~2 pages: CV including name and email of two potential referees
- ~2 pages: summary of your experiences with the techniques planned for this lab and why you think you might be the right person for this type of position.

### Application procedure:

- Please send the documents combined as a single PDF file to [jobs@linguistik.uzh.ch](mailto:jobs@linguistik.uzh.ch) with the reference **LabManager**.
- This employment ad is open until the position is filled. Before preparing your application, you may check on the following webpage whether the position is still available: <https://www.liri.uzh.ch/en.html>
- Duration: two years with the possibility of permanency, subject to performance and budgetary developments
- Start of the position is at the next possible occasion (negotiable).

**Further information and/ or informal chats about the position:**

Volker Dellwo ([volker.dellwo@uzh.ch](mailto:volker.dellwo@uzh.ch)) or Martin Meyer ([martin.meyer@uzh.ch](mailto:martin.meyer@uzh.ch))
